A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 19, 2004 has been entered.

Claims 8 and 12 are allowed.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by JP9154485 or JP9103242.

JP9154485 and JP9103242 disclose a processed cheese-like food that is heated and emulsified at an upper limit temperature of about 120° C and then cooled (see corresponding abstracts).

The recitation that the product is made by a new process, if the process were indeed new and patentable, does not render an otherwise unpatentable product new and patentable. The instant claim is a product claim and not a process claim. The

product must stand on its own invention, independently of the process of producing same. See *In re Marosi*, 218 USPQ 195 and *In re Thorpe*, 227 USPQ 964.
